SuperRatings Statistics application offers great insights into how a fund is tracking relative to their peers on an ongoing basis.

With 16 statistical growth types available (Size, Cash flow & Cost), the application delivers both a current and historical breakdown of fund market share across the superannuation industry.

Report generation capability includes:

**1**  
FUM, Member, Employer, Active Member Ratio & Average Account Balance

**2**  
Cash Flow including inflow, outflow & % of assets

**3**  
Cost per member & Management Expense Ratios

**4**  
Both growth and absolute value comparison report analysis provided on an annual and quarterly basis.

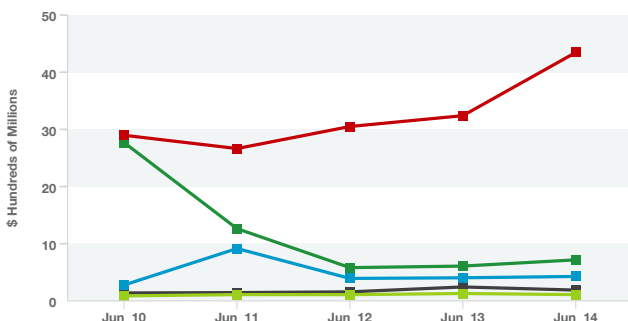

**5**  
All output is time and date stamped with a cover page and accompanying definitions, along with a search function that allows you to save report requirements, for ease of use.

Data is refreshed on both a quarterly and annual basis.
